PROFESSIONAL PROFILE

Customer Experience and Knowledge Management professional with 4+ years at **Shahid / MBC Group**, supporting one of the MENA region's largest streaming platforms. Experienced in Help Centres, Salesforce Knowledge, customer-facing self-service, internal update flows, training content, and bot-led journeys. Leads cross-functional projects that translate complex product and operational changes into clear English and Arabic knowledge assets, launch guidance, and agent training.

PROFESSIONAL EXPERIENCE

Knowledge Management & Customer Excellence Specialist

MBC Group – Shahid | Dubai, UAE | 2022 – 2025

- Owned and maintained customer knowledge infrastructure, including help center content, Salesforce Knowledge Base, and Salesforce CMS workflows for customer-facing teams across the MENA region
- Led the **Help Centre Revamp**, expanding topic coverage and improving customer self-service paths across major customer query types
- Rebuilt and restructured Salesforce Knowledge Base content in English and Arabic to improve agent usability, content accuracy, and first-contact resolution support.
- Upgraded the **WhatsApp Bot Revamp** from basic text responses into a richer interactive support experience with multimedia support and multi-choice flows.
- Administered Salesforce CMS and Knowledge processes, supporting user configuration, article workflows, case-management processes, and CRM data quality
- Created Care Update emails and internal communications to align product, operations, customer care, vendors, and senior stakeholders on policy and operational changes.
- Facilitated workshops and knowledge-sharing sessions to train teams on updated systems, content standards, and best practices.

SELECTED PROJECTS

- Help Centre Revamp:** Expanded customer self-service coverage and improved customer query resolution paths.
- WhatsApp Bot Revamp:** Introduced richer interactive flows, multimedia support, and clearer guided support paths.
- Knowledge Base Revamp:** Restructured English and Arabic Salesforce Knowledge content for agent usability and accuracy.
- Salesforce Knowledge Base Revamp:** Rebuilt English and Arabic agent-facing knowledge content for findability, accuracy, consistency, and usability.
- Training Material Revamp:** Project-managed and technically updated approximately 500 English-language training slides across onboarding, SOPs, trainer guides, assessments, exercises, and quick-reference content.
- New Sign-Up Flow (NSF):** Led CX testing and bilingual launch training for new sign-up, sign-in, and password-reset journeys across supported platforms, reaching approximately 500 agents and 20 to 30 trainers across the UAE, Jordan, and Egypt.
